Software Engineer building digital products, automations and data solutions since 2020 across agribusiness, logistics, education and senior care services. I combine **Full Stack** development (Vue.js, React, Next.js, Node.js, NestJS, Django), **cloud on GCP** and **data analytics**, with a focus on practical, scalable and measurable solutions. I am currently pursuing a **Master's in Artificial Intelligence** at the **University of Valencia**, focused on integrating machine learning models and LLMs into real products and process automation.
